

STOP THOSE ROACHES!

The Sheriff's Clandestine Manual for Preparing Your Hideout

KITCHEN – Forbidden territory for roaches

- Take out **plates, glasses, utensils, and jars**.
- Store **all open food** in the fridge or **airtight bags**.
- **✗ No cereal left out in the open!**
- Whatever you remove, place it on the table and **cover it with a sheet** (top-secret operation style).
- **Take out the trash and paper bags**. No excuses.
- **Clean cabinets and corners**. Use a vacuum or brush — be a true **crumb detective**
- **Move the fridge and stove to sweep and clean behind them**.
That's where they **lay eggs and hide out**. Don't let any survive! 

BATHROOM – Grooming and espionage zone

- Empty **drawers and cabinets** (yes, even that lotion you never use).
- Store everything in **sealed bags**, like a **cosmetic smuggler**.
- Leave them in the **bathtub** — nobody looks there.
- **Keep the floor spotless**

BEDROOM – Watch out for hiding spots!

- **Empty the closet**: shoes, boxes, and stuffed conspirators out!
- **Pull out drawers** like you're escaping a raid.
- Build your **bunker on the bed** and cover it with a sheet (film noir style).

🌿 **OUTDOORS** – Don't let them hide outside!

- Remove **pet food and water bowls**.
- **Cut the grass** — this isn't a jungle.
- **Sweep up leaves, sticks, and anything** that looks like bug real estate.

✅ **MISSION CONCLUSIONS—**

- Leave the house for **4 hours** (pets included).
- **✗ No mopping for the next 3 days.**
The treatment will **degrade if mopped** — only **broom sweeping** allowed.
- The **treatment works on floors and surfaces**, so let it do its job.
- 🐟 Fish: **cover the tank and turn off the pump** (aquatic stealth mode).
- 🍽️ **Clean and store all dishes.**
- 🐦🦎 Birds and reptiles: **must be relocated.**
(No feathered protests, please.)

Thank you for joining this mission.
Sheriff Pest Control salutes you.
Out with the roaches!
